## DETAILED ACTION

### *Specification*

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### *Objection to Abstract*

The abstract of the disclosure is objected to because its length exceeds 150 words. See MPEP 608.01(b), which cites 37 CFR 1.72 (b), and states:

A brief abstract of the technical disclosure in the specification must commence on a separate sheet, preferably following the claims, under the heading "Abstract " or "Abstract of the Disclosure." The ***abstract*** in an application filed under 35 U.S.C. 111 ***may not exceed 150 words in length.*** The purpose of the abstract is to enable the United States Patent and Trademark Office and the public generally to determine quickly from a cursory inspection the nature and gist of the technical disclosure. The abstract will not be used for interpreting the scope of the claims.

Emphasis in bold italics added. Thus, the abstract must be amended so as to not exceed the 150 word limit. Correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-6, 9, 10, 14-17, 19, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following phrase(s) lack clear antecedent basis within the claim(s), i.e., either the particularly recited passage fails to be properly introduced prior to its appearance at that point in the claim or the structure recited in the passage is not an inherent part of or component of the previously recited structure:

(i) With regard to claim 4 (line 4), the phrase “a ***second*** force applying structure” (emphasis added) implies that there is antecedence for a “first force applying structure,” for which there is no antecedence.

Additionally, since claims 5, 6, 21 and 22 depend directly or indirectly from claim 4, they too are thus rejected under the second paragraph of 35 U.S.C. § 112.

(ii) With regard to claim 9 (line 1), “the second cam structure.”

Additionally, since claim 10 depends directly from claim 9, it too is thus rejected under the second paragraph of 35 U.S.C. § 112.

(iii) With regard to claim 14 (line 1-2), “the base portion.”

(iv) With regard to claim 15 (line 3-4), “the fitting portion.”

(v) With regard to claim 16 (line 3-4), “the fitting portion.”

Art Unit: 2627

(vi) With regard to claim 17 (line 4), "the fitting portion."

(vii) With regard to claim 19 (line 1-2) "the second force applying structure."

(viii) With regard to claim 19 (line 2) "the first force applying structure."

### ***Allowable Subject Matter***

Claims 1-3, 7, 8, 11-13, 18, 20 and 23-27 are tentatively considered allowable over the art of record, pending an updated search, amendments or arguments presented by the Applicant and considered by the Examiner in reply to this office communication.

Claims 4-6, 9, 10, 14-17, 19, 21 and 22 are tentatively considered allowable over the art of record, and would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action, pending an updated search, amendments or arguments presented by the Applicant and considered by the Examiner in reply to this office communication.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
